

# Converting UTX into TBX-Min and then TBX-Basic

## Obtain a valid UTX file:

A validated UTX file may be downloaded here:

<http://tbxconvert.gevterm.net/tbx-min/UTXsample.zip>

## Convert the file to TBX-Min:

Open a web browser and proceed to the following website:

<http://tbxconvert.gevterm.net/tbx-min/>

Once there, search for “UTX Conversion”. You will see some explanatory text beneath it.

### UTX Conversion

TBX-Min is a minimal TBX dialect designed to contain roughly the same information as a UTX file. For more information on UTX format, see the [UTX homepage](#).

A [sample UTX](#) is available for download. It may be used with the TBX-Min samples above to test the converter.

You can convert your files between UTX and TBX-Min by uploading your files below. See [the TBX-Min to UTX mapping](#) document for details on the method of conversion.

Convert UTX to TBX-Min:  LegalTermin...es\_new.utx

Convert TBX-Min to UTX:  LegalTermin...w (3).tbxm

To convert to TBX-Min, simply click “Choose file” next to “Convert UTX to TBX-Min”, select the desired file, then click the “Convert” button adjacent to the chosen file name which should now have appeared. There is also the option to convert from TBX-Min into UTX directly below these options.

## Validate the TBX-Min File:

Validation of the new TBX-Min file is recommended. The TBX-Min Validator can be found at:

<http://tbxconvert.gevterm.net/tbx-min/validate/validate.html>

### Validate TBX-Min Files Against XSD/RNG Schemas

Validate your TBX-Min file against the current XSD/RNG schema. Schemas are available [here](#).

#### XSD Validation:

Select TBX-Min file to validate:  No file chosen

#### RNG Validation:

Select XML file to validate:  No file chosen

To Validate simple choose the TBX-Min file and then click validate for both XSD and RNG validation options.

## View the TBX-Min File:

Although it is still being developed, the option to view the contents of the newly created TBX-Min file is available by going to:

<http://viewer.tbxinfo.net/>

# TBX-Min viewer

Please upload a TBX-Min (.tbxm) file for viewing

Choose File No file chosen

Submit

Simply click “Choose File”, select a TBX-Min file, and click “Submit” to be shown a simple layout of the contents of the TBX-Min File. This page will soon be more robust in features than it is currently.

## Convert TBX-Min to TBX-Basic:

At the same webpage as the above converter, just below the “UTX Conversion” section, there is a “**TBX Basic Conversion**” section.

## TBX Basic Conversion

You can convert your files between TBX-Basic and TBX-Min by uploading your files below. The conversion from TBX-Min to TBX-Basic is mostly lossless (see the [TBX-Basic to TBX-Min converter report](#) for details). However, the conversion from TBX-Basic to TBX-Min will of necessity lose much of the structured information. For an explanation of the current version of this converter, and a sample input/output file, download the [TBX-Basic to TBX-Min converter archive](#).

Convert TBX-Min to TBX-Basic:  LegalTermin...w (3).tbxm

The conversion instructions are the same as before. Select “Choose File”, browse for the desired TBX-Min file, and click “Convert”.
